

24-03-2015

Dear Microcredit Summit Campaign and fellow partners in the global movement to help 100 million families lift themselves out of extreme poverty,

With this letter Musoni Services states our commitment to take specific, measureable, and time-bound action to *help 100 million families lift themselves out of extreme poverty* – and therewith make a major step forward in ending extreme poverty entirely.

We know that this bold goal will require global partnerships that enable organizations to work together in new and innovative ways across a broad range of financial and non-financial sectors to reach goals and benchmarks that could not be obtained working apart. We are eager to join this global movement to demonstrate with others the power of partnerships against poverty and also to inspire new collaborations with those committed to supporting the movement of millions out of extreme poverty.

We know too that a goal means little without a concerted effort to honestly and accurately measure progress made towards the goal and therefore we commit to measuring our progress toward our goals through a consistent and reliable system. We also know that movement out of extreme poverty will require dedicated efforts to support those journeying out of poverty and we commit to developing and implementing products and services that facilitate this type of movement.

We commit to the following, by the end of 2015:

- To integrate the PPI Scorecards into the Musoni System enabling MFIs to easily capture and analyse social performance data
- To integrate the PPI Scorecards onto the Musoni tablet app making it possible for field officers to capture PPI data remotely, in both offline and online mode
- To develop the core PPI Reports and add directly to the Musoni System for all MFIs to benefit
- To encourage at least five of the MFIs using the Musoni System to start capturing PPI data, with the goal of capturing PPI data for over 50,000 entrepreneurs

We commit to the following, by the end of 2016:

- To encourage at least fifteen of the MFIs using the Musoni System to start capturing PPI data, with the goal of capturing PPI data for over 150,000 entrepreneurs

We look forward to presenting the progress we have made to reach these benchmarks at the next Microcredit Summit and to then renewing our commitment with new benchmarks for specific, measureable, and time-bound actions to help 100 million families lift themselves out of extreme poverty.

Sincerely,

Cameron Goldie-Scot

CEO, Musoni Services B.V.
