Dear Microcredit Summit Campaign and fellow partners in the global movement to help 100 million families lift themselves out of extreme poverty,

With this letter Grama Vidiyal states our commitment to take specific, measureable, and time-bound action to help 100 million families lift themselves out of extreme poverty – and therewith make a major step forward in ending extreme poverty entirely.

We know that this bold goal will require global partnerships that enable organizations to work together in new and innovative ways across a broad range of financial and non-financial sectors to reach goals and benchmarks that could not be obtained working apart. We are eager to join this global movement to demonstrate with others the power of partnerships against poverty and also to inspire new collaborations with those committed to supporting the movement of millions out of extreme poverty.

We know too that a goal means little without a concerted effort to honestly and accurately measure progress made towards the goal and therefore we commit to measuring our progress toward our goals through a consistent and reliable system. We also know that movement out of extreme poverty will require dedicated efforts to support those journeying out of poverty and we commit to developing and implementing products and services that facilitate this type of movement.

Grama Vidiyal is committing to expand its financial and non-financial services to the following number of clients in the financial year 2015-2016:

1. Add 150,000 clients for the financial services in FY15
2. Help 1,050,000 community members with our empowerment program
3. Organize 720 health Camps for our clients screening 300,000 members.
4. Provide 10,000 clients with discounted consultation/treatment in partner hospitals
5. Provide health education to 80,000 client families (or community)
6. Give access to health related products and medicines to 150,000 clients
7. Help 800,000 clients with the Free Meals program
8. Install 1000 household toilet connections and 4000 Water Tap connections
9. Establish 80 Community Knowledge Centers engaging 30 poor students each (total of 2400 students) to motivate in learning Basic Math and English.
10. Help 500,000 clients with the Health service and Development Program that provides Sanitary Napkins for women.
11. Measure poverty of 35,000 clients using PPI

Grama Vidiyal commits to implement the above plans in the current year (2015-16) and report the progress to the Microcredit Summit Campaign in April, 2016

We look forward to presenting the progress we have made to reach these benchmarks at the next Microcredit Summit and to then renewing our commitment with new benchmarks for specific, measureable, and time-bound actions to help 100 million families lift themselves out of extreme poverty.

Yours sincerely,
